| Permit to unload/Strike  1. Permanent Works supported by the above item of Temporary Works have gained sufficient strength to support the loading/use permitted (See concrete cube results below - or state any other PW design requirements if applicable)  2. Sequence of removal of TW, where specified by the TWD, is understood by the supervisor.  3. All standard safety measures executed i.e., holes covered and protected, leading edge protection etc  4. Risk Assessment, Method Statement and or associated Task Sheets in place  CONCRETE CUBE RESULTS OR OVER-WRITE WITH STRENGTH BY MATURITY |   |   |  |                                      |
